(in accordance with Regulation (EU) 2015/830)

FPM 208 lustre yellow

Version: 5 Revision date: 30/08/2018

Page 1 of 17 Print date: 30/08/2018

## SECTION 1: IDENTIFICATION OF THE MIXTURE AND OF THE COMPANY/UNDERTAKING.

### 1.1 Product identifier.

Product Name: FPM 208 lustre yellow

1.2 Relevant identified uses of the mixture and uses advised against.

Ceramic use.

#### Uses advised against:

Uses other than those recommended.

#### 1.3 Details of the supplier of the safety data sheet.

Company:	GLAZURA, S.R.O.				
Address:	Roudnická 122				
City:	413 01 Dobrín				
Telephone:	+420 416 809 711				
Fax:	+420 416 809 814, +420 416 809 733				
E-mail:	info@glazura.cz				

1.4 Emergency telephone number: (Available 24 hours)

### **SECTION 2: HAZARDS IDENTIFICATION.**

### 2.1 Classification of the mixture.

In accordance with Regulation (EU) No 1272/2008: Aquatic Chronic 2 : Toxic to aquatic life with long lasting effects. Eye Dam. 1 : Causes serious eye damage. Flam. Liq. 3 : Flammable liquid and vapour. Skin Irrit. 2 : Causes skin irritation. Skin Sens. 1 : May cause an allergic skin reaction. STOT SE 3 : May cause respiratory irritation.

### 2.2 Label elements.

Labelling in accordance with Regulation (EU) No 1272/2008: Pictograms:

Signal Word:

## Danger

H statements:

- H226 Flammable liquid and vapour.
- H315 Causes skin irritation.
- H317 May cause an allergic skin reaction.
- H318 Causes serious eye damage.
- H335 May cause respiratory irritation.
- H411 Toxic to aquatic life with long lasting effects.

P statements:

- P210 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. P261 Avoid breathing dust/fume/gas/mist/vapours/spray.
- P201 Avoid bleadining dust/fume/gas/mist/vapod
- P273 Avoid release to the environment.

(in accordance with Regulation (EU) 2015/830)

# FPM 208 lustre yellow

Revision date: 30/08/2018

Page 2 of 17 Print date: 30/08/2018

 P280
 Wear protective gloves/protective clothing/eye protection/face protection.

 P305+P351+P338
 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

 P310
 Immediately call a POISON CENTER/doctor/...

 P321
 Specific treatment (see ... on this label).

 P370+P378
 In case of fire: Use... to extinguish.

### EUH statements:

EUH208	Contains Dipentene. May produce an allergic reaction.
EUH208	Contains Rosin. May produce an allergic reaction.
EUH208	Contains delta-3-Carene. May produce an allergic reaction.

Contains: cyclohexanol Rosemary oil N. Afr. Vanadium isobutylate BISMUTH TRIS (2-ETHYLHEXANOATE) Eucalyptus globulus oil Pine exctract

### 2.3 Other hazards.

In normal use conditions and in its original form, the product itself does not involve any other risk for health and the environment.

## SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS.

### 3.1 Substances.

Not Applicable.

### 3.2 Mixtures.

Substances posing a danger to health or the environment in accordance with the Regulation (EC) No. 1272/2008, assigned a Community exposure limit in the workplace, and classified as PBT/vPvB or included in the Candidate List:

			(*)Classification - Regulation (EC) No 1272/2008

(\*)The complete text of the H phrases is given in section 16 of this Safety Data Sheet.

\* See Regulation (EC) No. 1272/2008, Annex VI, section 1.2.

[1] Substance with a Community workplace exposure limit (see section 8.1).

### **SECTION 4: FIRST AID MEASURES.**

IRRITANT PREPARATION. Its repeated or prolonged contact with the skin or mucous membranes can cause irritant symptoms such as reddening of the skin, blisters, or dermatitis. Some of the symptoms may not be immediate. They can cause allergic reactions on the skin.

### 4.1 Description of first aid measures.

In case of doubt or when symptoms of feeling unwell persist, get medical attention. Never administer anything orally to persons who are unconscious.

### Inhalation.

Take the victim into open air; keep them warm and calm. If breathing is irregular or stops, perform artificial respiration. Do not administer anything orally. If unconscious, place them in a suitable position and seek medical assistance.

### Eye contact.

Wash eyes with plenty of clean and cool water for at least 10 minutes while pulling eyelids up, and seek medical assistance. Dont let the person to rub the affected eye.

#### Skin contact.

(in accordance with Regulation (EU) 2015/830)

## FPM 208 lustre yellow

Version: 5

Revision date: 30/08/2018

💏 GLAZURA

Page 5 of 17 Print date: 30/08/2018

Remove contaminated clothing. Wash skin vigorously with water and soap or a suitable skin cleaner. NEVER use solvents or thinners.

### Ingestion.

If accidentally ingested, seek immediate medical attention. Keep calm. NEVER induce vomiting.

### 4.2 Most important symptoms and effects, both acute and delayed.

Corrosive Product, contact with eyes or skin can cause burns; ingestion or inhalation can cause internal damage, if this occurs immediate medical assistance is required.

Contact with eyes may cause irreversible damage.

It may cause an allergic reaction, dermatitis, redness or inflammation of the skin.

### 4.3 Indication of any immediate medical attention and special treatment needed.

Request immediate medical attention. Never administer anything orally to persons who are unconscious. Do not induce vomiting. If the person vomits, clear the respiratory tract. Cover the affected area with a dry sterile bandage. Protect the affected area from pressure or friction.

## **SECTION 5: FIREFIGHTING MEASURES.**

Flammable product, the necessary prevention measures should be taken in order to avoid risks, In case of fire, the following measures are recommended:

### 5.1 Extinguishing media.

#### Suitable extinguishing media:

Extinguisher powder or CO2. In case of more serious fires, also alcohol-resistant foam and water spray.

### Unsuitable extinguishing media:

Do not use a direct stream of water to extinguish. In the presence of electrical voltage, you cannot use water or foam as extinguishing media.

### 5.2 Special hazards arising from the mixture.

#### Special risks.

Fire can cause thick, black smoke. As a result of thermal decomposition, dangerous products can form: carbon monoxide, carbon dioxide. Exposure to combustion or decomposition products can be harmful to your health.

During a fire and depending on its magnitude the following may occur:

- Flammable vapors or gases.

### 5.3 Advice for firefighters.

Use water to cool tanks, cisterns, or containers close to the heat source or fire. Take wind direction into account. Prevent the products used to fight the fire from going into drains, sewers, or waterways. Product residues and extinguishing media may contaminate the aquatic environment. Follow the instructions given in the emergency or fire evacuation plan or plans if available.

### Fire protection equipment.

According to the size of the fire, it may be necessary to use protective suits against the heat, individual breathing equipment, gloves, protective goggles or facemasks, and boots. During extinction and depending on the magnitude and proximity to the fire, additional protective equipment such as chemical protection gloves, heat-reflecting suits or gas-tight suits may be required.

### **SECTION 6: ACCIDENTAL RELEASE MEASURES.**

#### 6.1 Personal precautions, protective equipment and emergency procedures.

Eliminate possible ignition points and ventilate the area. No smoking. Avoid breathing fumes. For exposure control and individual protection measures, see section 8.

### 6.2 Environmental precautions.

Product dangerous for the environment, in case of large spills or if the product contaminates lakes, rivers, or sewers, inform the responsible authorities according to local legislation. Prevent the contamination of drains, surface or subterranean waters, and the ground.

(in accordance with Regulation (EU) 2015/830)

FPM 208 lustre yellow

Version: 5

Revision date: 30/08/2018

Page 6 of 17 Print date: 30/08/2018

### 6.3 Methods and material for containment and cleaning up.

Pick up the spill with non-combustible absorbent materials (soil, sand, vermiculite, diatomite, etc.). Pour the product and the absorbent in an appropriate container. The contaminated area should be immediately cleaned with an appropriate decontaminator. Pour the decontaminator on the remains in an opened container and let it act various days until no further reaction is produced.

### 6.4 Reference to other sections.

For exposure control and individual protection measures, see section 8. For later elimination of waste, follow the recommendations under section 13.

## **SECTION 7: HANDLING AND STORAGE.**

### 7.1 Precautions for safe handling.

The fumes are heavier than air and can spread across the ground. They can form explosive mixtures with air. Prevent the creation of flammable or explosive fume concentrations in the air; prevent fume concentrations above work exposure limits. The product must only be used in areas where all unprotected flames and other ignition points have been eliminated. Electrical equipment has to be protected according to applicable standards.

The product can be electrostatically charged: always use earth grounds when transferring the product. Operators must use antistatic footwear and clothing, and floors must be conductors.

Keep the container tightly closed and isolated from heat sources, sparks, and fire. Do not use tools that can cause sparks.For personal protection, see section 8.

In the application area, smoking, eating, and drinking must be prohibited. Follow

legislation on occupational health and safety.

Never use pressure to empty the containers. They are not pressure-resistant containers. Keep the product in containers made of a material identical to the original.

### 7.2 Conditions for safe storage, including any incompatibilities.

Store according to local legislation. Observe indications on the label. Store the containers between 5 and 35° C, in a dry and well-ventilated place, far from sources of heat and direct solar light. Keep far away from ignition points. Keep away from oxidising agents and from highly acidic or alkaline materials. Do not smoke. Prevent the entry of non-authorised persons. Once the containers are open, they must be carefully closed and placed vertically to prevent spills.

Classification and threshold amount of storage in accordance with Annex I to Directive 2012/18/EU (SEVESO III):

DNEL: Derived No Effect Level, level of exposure to the substance below which adverse effects are not anticipated. DMEL: Derived Minimal Effect Level, exposure level corresponding to a low risk, that risk should be considered a tolerable minimum.

### 8.2 Exposure controls.

### Measures of a technical nature:

Provide adequate ventilation, which can be achieved by using good local exhaust-ventilation and a good general exhaust system.

## SECTION 10: STA ILITY AND REACTIVITY.

(in accordance with Regulation (EU) 2015/830)

## FPM 208 lustre yellow

Version: 5 Revision date: 30/08/2018 % GLAZURA

Page 10 of 17 Print date: 30/08/2018

### 10.1 Reactivity.

If the storage conditions are satisfied, does not produce dangerous reactions.

### 10.2 Chemical stability.

Stable under the recommended handling and storage conditions (see section 7).

### 10.3 Possibility of ha ardous reactions.

Flammable liquid and vapour.

### 10.4 Conditions to avoid.

Avoid the following conditions:

- High temperature.
- Static discharge.
- Contact with incompatible materials.
- Avoid temperatures near or above the flash point. Do not heat closed containers. Avoid direct sunlight and heat, as these may cause a risk of fire.

### 10.5 Incompatible materials. Avoid

the following materials:

- Explosives materials.
- Toxic materials.
- Oxidi ing materials.

### **10.** Ha ardous decomposition products.

In case of fire, dangerous decomposition products can be generated, such as carbon monoxide and dioxide and nitrogen fumes and oxides.

## SECTION 11: TOXICOLOGICAL INFORMATION.

IRRITANT PREPARATION. Its repeated or prolonged contact with the skin or mucous membranes can cause irritant symptoms such as reddening of the skin, blisters, or dermatitis. Some of the symptoms may not be immediate. They can cause allergic reactions on the skin.

IRRITANT PREPARATION. The inhalation of spray mist or suspended particulates can irritate the respiratory tract. It can also cause serious respiratory difficulties, central nervous system disorders, and in extreme cases, unconsciousness.

#### 11.1 Information on toxicological effects.

Repeated or prolonged contact with the product can cause the elimination of oil from the skin, giving rise to non-allergic contact dermatitis and absorption of the product through the skin.

### Toxicological information about the substances present in the composition.

3,7,7-trimethylbicyclo[4.1.0]hept-3-ene	Dermal			
CAS No: 13466-78-9 EC No: 236- 719-3	Inhalation			
	Oral	LD50	Торо	1400 mg/kg
Camphor	Dermal	LD50	Ratto	2000 mg/kg
CAS No: 76-22-2 EC No: 200-945-0	Inhalation	LC50	Ratto	500 mg/kg

a) acute toxicity

Not conclusive data for classification.

Acute Toxicity Estimate (ATE): Mixtures: ATE (Oral) = 4.821 mg/kg

b) skin corrosion/irritation Product classified:Skin irritant, Category 2: Causes skin irritation.

c) serious eye damage/irritation Product classified:Serious eye damage, Category 1: Causes serious eye damage.

d) respiratory or skin sensitisationProduct classified:Skin sensitiser, Category 1: May cause an allergic skin reaction.

e) germ cell mutagenicity Not conclusive data for classification.

f) carcinogenicity Not conclusive data for classification.

g) reproductive toxicity Not conclusive data for classification.

h) STOT-single exposure Product classified:Specific target organ toxicity following a single exposure, Category 3:

i) STOT-repeated exposure Based on available data, the classification criteria are not met.

) aspiration ha ard Based on available data, the classification criteria are not met.

## SECTION 12: ECOLOGICAL INFORMATION.

### 12.1 Toxicity.

			Ecotoxicity	
Name	Туре	Test	Kind	Value
	LC50         Fish         12,5 mg/l (96 h) [:           Fish         [1] Brenniman, ., R. Hartung, and W Weber r. 197 Continuous Flow Bioassay Method to Evaluate the Effect Outboard Motor Exhausts and Selected Aromatic Toxica on Fish. Water Res. 10(2):165-169			od to Evaluate the Effects of Selected Aromatic Toxicants
	Aquatic invertebrates	LC50       Crustacean       13 mg/l (48 h) [1]         [1] Caldwell, R.S., E.M. Caldarone, and M.H. Mallon 1977.         Effects of a Seawater-Soluble Fraction of Cook Inlet Crude         Oil and Its Ma or Aromatic Components on Larval Stages of         the Dungeness Crab, Cancer magister Dana. In: D.A.Wolfed         (Ed.)		ne, and M.H. Mallon 1977. raction of Cook Inlet Crude nponents on Larval Stages of
1,3,5-trimethylben ene,mesitylene CAS No: 108-67-8 EC No: 203-604-4	Aquatic plants			

### 12.2 Persistence and degradability.

There is no information available on the degradability of the substances present. No information is available regarding the degradability of the substances present.No information is available about persistence and degradability of the product.

### 12.3 ioaccumulative potential.

Information about the bioaccumulation of the substances present.

Name	ioaccumulation			
Name	Log Pow	CF	NOECs	Level
1,3,5-trimethylben ene,mesitylene N. CAS: 108-67-8 EC No: 203-604-4	3,42	-	-	Moderate
delta-3-Carene N. CAS: 13466-78-9 EC No: 236-719-3	4,38	-	-	High
3,7,7-trimethylbicyclo[4.1.0]hept-3-ene N. CAS: 13466-78-9 EC No: 236-719-3	4,38	-	-	High

### 12.4 Mobility in soil.

No information is available about the mobility in soil. The product must not be allowed to go into sewers or waterways. Prevent penetration into the ground.

### 12.5 Results of P T and vPv assessment.

(in accordance with Regulation (EU) 2015/830)

## FPM 208 lustre yellow

Version: 5 Revision date: 30/08/2018

Page 13 of 17 Print date: 30/08/2018

No information is available about the results of PBT and vPvB assessment of the product.

### 12. Other adverse effects.

No information is available about other adverse effects for the environment.

## SECTION 13 DISPOSA CONSIDERATIONS.

### 13.1 aste treatment methods.

Do not dump into sewers or waterways. Waste and empty containers must be handled and eliminated according to current, local/national legislation.

Follow the provisions of Directive 2008/98/EC regarding waste management.

## SECTION 14: TRANSPORT INFORMATION.

Transport following ADR rules for road transport, RID rules for railway, ADN for inner waterways, IMD for sea, and ICAO/IATA for air transport.

**\_and:** Transport by road: ADR, Transport by rail: RID. Transport documentation: Consignment note and written instructions **Sea:** Transport by ship: IMD . Transport documentation: Bill of lading **Air:** Transport by plane: ICAO/IATA. Transport document: Airway bill.

### 14.1 UN num er.

UN No: UN1263

### 14.2 UN proper shipping name.

Description: ADR: UN 1263, PAINT RELATED MATERIAL, 3, P III, (D/E) IMD : UN 1263, PAINT RELATED MATERIAL (EUCALYPTUS LOBULUS OIL), 3, P III, MARINE POLLUTANT ICAO/IATA: UN 1263, PAINT RELATED MATERIAL, 3, P III

### 14.3 Transport ha ard class es .

Class(es): 3

### 14.4 Packing group.

Packing group: III

### 14.5 Environmental ha ards.

Marine pollutant: Yes

Dangerous for the environment

### 14. Special precautions for user.

Ha ard number: 30

(in accordance with Regulation (EU) 2015/830)

Page 14 of 17 Print date: 30/08/2018

ADR L : 5 L IMD L : 5 L ICAO L : 10 L

Provisions concerning carriage in bulk ADR: Not authorized carriage in bulk in accordance with ADR. Transport by ship, FEm Emergency sheets (F Fire, S - Spills): F-E,S-E Proceed in accordance with point 6.

# **14.7 Transport in ulk according to Anne II of MARPO and the I C Code.** The product is not transported in bulk.

## SECTION 15: RE U ATORY INFORMATION.

### 15.1 Safety health and environmental regulations/legislation specific for the mi ture.

The product is not affected by the Regulation (EC) No 1005/2009 of the European Parliament and of the Council of 16 September 2009 on substances that deplete the ozone layer.

### Volatile organic compound (VOC)

VOC content (p/p): 15,371 % VOC content: 152,992 g/l

Product classification according to Annex I of Directive 2012/18/EU (SEVESO III): E2

The product is not affected by Regulation (EU) No 528/2012 concerning the making available on the market and use of biocidal products.

The product is not affected by the procedure established Regulation (EU) No 649/2012, concerning the export and import of dangerous chemicals.

#### 15.2 Chemical safety assessment.

No Chemical Safety Assessment has been carried out for this substance/mixture by the supplier.

## **SECTION 1** : OTHER INFORMATION.

Complete text of the H phrases that appear in section 3:

- H224 Extremely flammable liquid and vapour.
- H226 Flammable liquid and vapour.
- H228 Flammable solid.
- H302 Harmful if swallowed.
- H304 May be fatal if swallowed and enters airways.
- H315 Causes skin irritation.
- H317 May cause an allergic skin reaction.
- H318 Causes serious eye damage.
- H319 Causes serious eye irritation.
- H332 Harmful if inhaled.
- H335 May cause respiratory irritation.
- H335/H336
- H371 May cause damage to organs.
- H373 May cause damage to organs through prolonged or repeated exposure.
- H400 Very toxic to aquatic life.
- H410 Very toxic to aquatic life with long lasting effects.
- H411 Toxic to aquatic life with long lasting effects.

Classification codes:

Acute Tox. 4 : Acute toxicity (Inhalation), Category 4 Acute Tox. 4 : Acute toxicity (Oral), Category 4

(in accordance with Regulation (EU) 2015/830)

## FPM 208 lustre yellow

Abbreviations and acronyms used:

- ADR: European Agreement concerning the International Carriage of Dangerous oods by Road.
- CF: ioconcentration factor.
- CEN: European Committee for Standardization.
- DMEL: Derived Minimal Effect Level, exposure level corresponding to a low risk, that risk should be considered a tolerable minimum.
- DNEL: Derived No Effect Level, level of exposure to the substance below which adverse effects are not anticipated.
- EC50: Half maximal effective concentration.
- PPE: Personal protection equipment.
- IATA: International Air Transport Association.
- ICAO: International Civil Aviation Organization.
- IMD : International Maritime Code for Dangerous oods.
- LC50: Lethal concentration, 50%.
- LD50: Lethal dose, 50%.
- Log Pow: Logarithm of the partition octanol-water.
- NOEC: No observed effect concentration.
- RID: Regulations Concerning the International Transport of Dangerous oods by Rail.
